

Abstract

This is a note on the new plugin mechanism added to ggobi. The goal is to allow optional facilities to be loaded into the running ggobi application.

This mechanism allows us and other users to provide extensions to ggobi.

These might introduceha59(plot)-256(t)28(yp)-29(es,)-274(w)28(a)28(ys)-258(to)-257cread data auxillaryols to vi29(h343(and)-343(manipulate)-341(data.))TJ/F18 14.346 Tf -24.906 -32.946 Td[(1)-1125(Motiv)65(ation
